"Governor George Bush will provide America with decisive leadership that's respected at home and abroad."

John McCain
— John McCain
United States Senator

"No matter what else I do in life, asking Laura to marry me was the best decision I ever made."

— George W. Bush

By David J. Phillip, AP

The family: Former president George Bush and his wife, Barbara, pose with their children, in front, and their children's spouses, in rear, in Houston in June 1999. From left: Neil and Sharon Bush; George W. and Laura Bush; the former president and first lady; Jeb and Columba Bush; Marvin and Margaret Bush; and Dorothy and Bobby Koch.

GEORGE W. BUSH...

In His Own Words

"When I put my hand on the Bible, I will swear to uphold the honor and dignity of the office to which I have been elected."

On Quality Education...

"We should make a solemn commitment in America that every child will be educated — that no child will be left behind."
"I believe in high standards and accountability to make sure every child can read. Measure progress, show the schools on failure — and when we spend federal money, we want results."

On Social Security...

"I stand committed to keeping Social Security money for Social Security. Social Security earned their benefits, made their plans — no changes, no reductions."
"Let's allow younger workers to put part of their payroll taxes into 'voluntary' and 'optional' voluntary personal retirement accounts that they control."

On Cutting Taxes...

"Today, our high taxes fund a surplus, but it's the people's money. Now is the time to return the tax code... it's not risky to let taxpayers keep more of their own money."
"I will cut taxes for every taxpayer, in every income bracket... double the child credit to \$1,000 per child... double the death tax and slash the marriage penalty by restoring the 10% deduction for two income, married couples."

On Health Care...

"We will set Medicare on firm financial ground and make prescription drugs available and affordable to all seniors... giving at least a 25% discount on drug benefits plans."
"We will give low-income Americans tax credits to buy the private health insurance they need... and make the cost of long-term care insurance fully deductible... and give tougher laws to keep tobacco out of the hands of kids."

On National Defense...

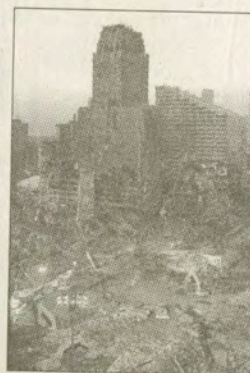

"Our military is challenged by aging weapons and falling intelligence... I will restore the bond between America's President and America's military."
"Our American troops should be in harm's way when America's interests are at stake. My administration will deploy anti-ballistic missile systems and I will commit an additional \$20 billion for defense research and development."

"When I act, you will know my reasons... when I speak, you will know my heart."

George W. Bush

FINAL WORD

11 SEPT. 2002

Real wars are not metaphors. And real wars have a beginning and an end. Even the horrendous, intractable conflict between Israel and Palestine will end one day. But this antiterror war can never end. That is one sign that it is not a war but, rather, a mandate for expanding the use of American power."

Left-wing novelist Susan Sontag, in an op-ed article published Sept. 10 in The New York Times. Ground Zero, at left.
