A Days Events.

Clarence appointed as head of committee to paint A. he used 6½ bushels of lime, the lime was not very good. He had 6 barrels of water slacked the lime on the hill carried it to the A in buckets and painted the A with brooms. Went over the D twice. The road is very poor; one good team should not pull up over three 50 gallons of water up the hill. The night before A day lime should be taken on the hill and a load of water the next morning at least a half an hour before time for the boys to be on the hill the lime should be slacking. The whitewash should not be too thick. With 30 good men the job should be done in 4 hours.

On the Dixie Henry Miles had 8 good men he used. 12½ pounds of white lead 1 pint of turpentine and one gallon of boiled linseed oil. The boys David Milne was let over the side with a rope and held by 3 boys the paint was held by a boy on top. Two big ropes are necessary a plank with a rope on each end held upright the painter will make it much easier.

The school grounds were cleaned up and the track put in shape and also the tennis court. Thirty five men were used but seventy five would not have been to many.

Every boy was on the job, not one shuffler. The boys each paid 10¢ for punch. We ate lunch on the hill

Donts

Don't think you know it all and try to make everybody come around to your point of view.
Don't forget everything until the last minute. Think of Founders Day and D Day and other special days at least two weeks before things happen.
Don't forget to bring things up in student body meeting.
Don't get high flown ideas like all the rest of us get you a few friends and let them help you. Don't let them run you. Don't be like the rest of us and say something you don't mean because of lack of preparation. Don't be above taking advice even from fellows like us we may be right some

Do's

Do try to get in sympathy with all the other officers.
Do try and have a mind of your own
Do have more than one friend and work them all, what are they good for
Do what best agrees with your conscience if you are called on to decide something.
Do put your trust in your friends if you hold them responsible and have confidence in them they will come through.
Do be prepared as much as you can for what you see coming.
Do have a calender and mark on it the important days of the year so that you can remember

Donts

of the time

Don't think that if things go wrong that it's everybody else it's you.

Dos

them

Liabilities (continued)

Brought over from other page	$559.52
